To fix this problem the user must adjust the number of sheets used by EXCEL when EXCEL is opened. To do this follow these steps:

- 1) Close the Radstar Data Capture Utility by selecting the **<Quit>** button.
- 2) Open up MS Excel and select the **<File>** tab (top left) then select **<Options>** from the dropdown menu.

ccel Options		<u>? ×</u>
General Formulas	General options for working with Excel.	
Proofing	User Interface options	
Proofing Save Language Advanced Customize Ribbon Quick Access Toolbar Add-Ins Trust Center	User Interface options Show Mini Toolbar on selection ① Enable Live Preview ③ Color scheme: Silver * ScgeenTip style: Show feature descriptions in ScreenTips * When creating new workbooks Use this font: Body Font Font size: 11 * Default yiew for new sheets: Normal View * Personalize your copy of Microsoft Office User name:	
	ок с	ancel

3) Under the **<General>** menu item change the "*Include this many sheets* " item to **3**.

Note: The Radstar Charting function requires 3 worksheets: one for DATA, one for CHARTING, and one for CALCULATIONS. Microsoft Office EXCEL 2013 sets this default to 1 necessitating the need to change it to 3. Previous versions of EXCEL set this default to 3 or 5.
